

Time to spray or slash

Anzac Tree Daisy!!

- **Anzac tree daisy (*Montanoa hisbiscifolia*) is about to flower.**
- It is a listed exotic environmental weed found on at least 20 properties in Moggill Creek catchment.
- It thrives in drainage lines from the ridge tops down to the creeks.
- It produces large numbers of seeds which are distributed by wind and water.

- **Prevent seeding by spraying or slashing NOW.**
